

DECT Wireless Handsets

KX-TD7685 / 7695 / 7696

Enhanced Communications Solutions

Panasonic ideas for life

Always available—**wherever you go.**

Enjoy superb mobility no matter where you work

Whether it is in an office, factory, warehouse, supermarket, or other large facility. The Panasonic Multi-Cell DECT System keeps you in constant touch with colleagues and key customers even when you have to leave your work area. Elegant, compact and convenient, these high-performance telephones put a host of advanced communication technology at your fingertips.

The Panasonic DECT handsets are the wireless connection

to your customers, colleagues as well as to your Panasonic Communication System. The KX-TD7685, the KX-TD7695 and the KX-TD7696 will give you the opportunity to use all features of your telecommunication system, no matter where you are.

Stay in touch with the features you need

All Panasonic DECT handsets feature easy and intuitive operation. The large, clear display and graphical icon menu show a quick overview of

all system features. Whenever you get a call or touch a key, the LCD lights up in blue for easy visibility—even in the dark. Flexible keys let you quickly and conveniently access phone system features and handset functions. A graphical Feature Menu and a navigation joystick allow simple, easy access to the phone system's functions and features.

Customize your DECT handset with individual ringtones so you'll instantly know who's calling or to differentiate internal versus external calls or even an internal phone group. In mute mode, the 3-color LED will show you who's on the line. Just set up a different color for each incoming call.

Easy Menu Operation

LED Call Indicator

Always stay connected.

The features & benefits of your desk phone—anywhere in the building

Panasonic DECT mobile wireless handsets coupled with your Panasonic KX-TAW/TDA/TDE/NCP Communications Systems offer the ideal mobile communications solution. Depending on your system, you can have up to a maximum of 128 cell stations.

Big buildings are no longer a big problem. The system supports greater range with the use of multiple cell antennas, which automatically hand off calls from one station to the next as you move throughout your warehouse, plant, showroom or any large facility without the need for any special interface.

With Panasonic DECT, multi-system registration allows you to roam across up to 4 different phone systems with one wireless handset for maximum flexibility.

Tough outside. Tech inside.

A rugged phone for tough environments

The KX-TD7696 with its IP54 dust and splash resistance is the perfect communications companion when work takes you to the factory floor, warehouse or any challenging environment. Need a tough phone that lets you take along all the features of your desk phone? The KX-TD7696 just might be the perfect solution. Ideal for industrial, manufacturing, healthcare, retail and warehouse settings.

A tough exterior doesn't mean sacrificing features

The KX-TD7696 boasts a large, 6-line, blue backlit LCD and includes all the features you'd expect such as Caller ID, personal and system speed dials, and a built-in 100-entry phone book and distinct ring/LED options. The handset includes an intuitive Graphical Icon Menu and dynamic Operation Guidance with Soft Keys and a Built-in Joystick.
